Part A

The Schliemann Family Tree from 1694 to 2021

Currently all of the members of the Schliemann family in Australia, born with the name Schliemann, are related to two boys born in Copenhagen Denmark to Peter Schliemann (1810 to 1864).

They were Heinrich Peter Wilhelm Schliemann (Henry) (born 18 May 1842 died 5 October 1912) and Friedrich Wilhelm Ferdinand Schliemann (Ferdinand), my Great Grandfather, (born 1856 died 1914) who in 1877 and aged 20 followed his half brother to Australia landing in Queensland. Peter Schliemann was born in Wilster Germany (as it is now called) in 1810 at which time the area above Hamburg (Schleswig Holstein) was under the control of the Danish King. Peter and all known ancestors worked on farms in the Wilster Region and he decided to leave the land and move to Copenhagen around the 1830s.

There were a large number of Scandinavians emigrating to the Colony of Queensland after 1870 due to a contract between the Queensland Colonial Government and a Hamburg Shipping company and that shipping line included the ships that brought both Heinrich (Henrik or Henry) and Ferdinand to Australia landing in Rockhampton.

Ferdinand left Copenhagen 19 March 1877 as a typographer, moving to Queensland via Hamburg. He left Hamburg 3 April 1877 as a book printer on the ship "S/S Charles Dickens".

Peter and Ferdinand in Copenhagen.

The following is an extract of various emails from Steinar Johansen who was undertaking on my behalf some detective work on where Peter and Ferdinand lived in Copenhagen. Peter died in 1864 when Ferdinand was eight and Anne (Nielsen) his mother, Peter's second wife, died in 1868 when Ferdinand was around 12 but we have not been able to find out who he was living with after that.

- When Peter married his first wife Anna Müller on the 21 April 1837, he lived in Nørrevold 259 which in 1875 changed to Nørre Voldgade 110, and in 1961 it was rebuilt with Nørre Voldgade 106.
- On 10 July 1842 he had moved to Tornebuskegade 159A
- In 1856 when Ferdinand was born, his address was Aabenraa 223.
- In 1864 when Peter died he was living at Lille Regnegade 10 which since 1910 was called Ny Østergade 30 and the Building has been demolished and is now used as a car park area.
- At the time of Ferdinand's Confirmation in April 1870 he was at Fiolstræde 46, Copenhagen. The 1870 census shows Fiolstræde 46 as a hostel, but there is no mention of the guests staying there, only the owner's family.
The building was combined with several others and rebuilt in 1901. It became Fiolstræde 44 which is a Merchant college.

So, it looks like all the addresses we have are for buildings that have been rebuilt or demolished. Note that all addresses are within one kilometre of each other.

Ferdinand was in Copenhagen in 1870, while Henrik (Heinrich) was in Køge. Henrik may have come to Copenhagen in connection with Ferdinand's confirmation, and both could have stayed at the hostel in Fiolstræde 46. This is just speculation. It may be possible that Ferdinand could have stayed with his half-sister Katharine Laurine Amalie Schliemann who would have been 23 when Anna Schliemann died.

In relation to Peter Schliemann's trade as a master shoemaker there is a County Protocol listing occupation that require a license.

Checking the book for licensed shoemakers in Copenhagen around the time when Peter was first mentioned as a shoemaker, shows that on 7 October 1843 Peter Schliemann paid 5 Riksdaler (about \$5).

Note that when Peter left Wilster to move to Copenhagen he would have been a labourer and maybe a tenant farmer as were his ancestors so apparently he learned a trade

Heinrich Peter Wilhelm Schliemann (Henry)

Henry Schliemann's father was Peter Schliemann and his mother Anna Müller. He arrived in Australia in 1871. Henry married Christiane Caroline Olufine Jensen in 1874.

Christiane had one child before being married and that was Lily Ferdinanda Christensen who was born 26 June 1872 and on the birth certificate it showed a surname Jensen. Her name was subsequently changed to adopt Schliemann. The father is unknown but I will assume it was Henry. Subsequently Henry and Christiane had 5 (more) children.

1. Esther Louisa Schliemann Born 9 November 1877 Died 27 March 1921
2. Henry Alfred Schliemann Born 1879 Died 1956
3. Frederich Herman Schliemann Born 1881 Died 1888
4. Julius Charles Schliemann Born and Died on same day in 1883
5. Carl George Schliemann Born 1885 Died 1945

Lily Ferdinanda Christensen Schliemann married Anton Thomsen who was Danish & they had a large family and lived in Bundaberg.

Esther Louisa Schliemann a sister of Lily Ferdinanda Thomsen (nee Schliemann) married Soren Bouet Lorentzen Faldt in 1901 and had a large family. One of Esther's children Laura Faldt married a son of Lily Ferdinanda Thomsen (nee Schliemann) Roy Thomsen so the daughter of one sister married the son of another sister.

Henry Alfred Schliemann was a clever engineer and had 2 sons. He lived in Paddington and was a cousin to Venzel, Max, Anna. He worked for some time at Parisian Laundry in Oxford Street Woollahra Sydney) which was the business of Ferdinand and then his son Venzel.

Friedrich Wilhelm Ferdinand Schliemann (who on his naturalisation papers signed as Ferdinand Frederik Vilhelm Schliemann)

Ferdinand Schliemann's father was Peter Schliemann and his mother Anna Nielsen after Peter remarried when his first wife died.

Venzel, Anna & Ferdinand (and one of Venzel's sons Ronald) are buried together in Waverley cemetery: Anna died in 1919 from the influenza pandemic. Max was cremated and had his ashes spread at Eastern Suburbs Crematorium and Dorothea died in Copenhagen when she was on a visit with Max and was buried there.

As advised by Danish authorities Dorothea is buried in Assistens Cemetery in Copenhagen but in the area she was buried (section F) no graves have any headstones now. That is while some large headstones and memorials are still in place (such as Hans Christian Anderson) most were removed. I have included a link to a page on their site you may wish to visit. It is <http://assistens.dk/assistens-kirkegarden/>

John Bison, a Danish archivist with Danish Archives, has advised that Peter Schliemann was buried in either Assistens Cemetery or the graveyard of Sankt Petri both of which are in Copenhagen. Sankt Petri (St Peter) is a Lutheran church that was mainly used by German residents. It was the church in which Ferdinand was baptised.

Ferdinand & Dorothea née Jagd were both born in Denmark, but married in Sydney where their children were born.

Alice Ann Schliemann (nee Harris) said that Venzel used to talk about an uncle Hans who was a clever geologist. He was Hans Jørgen Rasmussen Jagd who died 26 Feb 1940. His father was Christian Jagd and his mother Dorothy (née Tornøe). Venzel and Alice met them when in Denmark on their honeymoon.

Hans apparently used to go to places like Cunnamulla to find water & build bores. Hans was a Licenced Surveyor and it is assumed it was his name on the pocket (Fob) watch left to Venzel and which is currently held by me. I have included photos on this site. The date 28.6.07 (28 June 1907) on the engraving is not one I can tie to any known event (birth etc)

On Alice Schliemann's honeymoon with Venzel in 1926 they visited Ferdinand's half sister Katharine Laurine Amalie Madsen (nee Schliemann) in Copenhagen in 1926 and she was a very sick old lady. They also met up with members of the Jagd family (Venzel's mother's family) including Poul (Paul) Jagd who's photos can also be found in Part D. Note that when Dorothea dies in 1921 she only had Venzel and Max alive out of 7 children having lost 4 under the age of 1 and Anna Aileen Rasmie in 1919. Ferdinand and Dorothea had the 7 children while living in Paddington but Henry, Elsie, Oscar and Wilhelm all died under the age of 1 and are in a common grave at Waverley Cemetery. It is not the same grave where Ferdinand, Venzel, Anna and Ronald are buried. It was unmarked and so Gary and I arranged for a headstone.

Anna Aileen and Dorothea changed their surname to Sleeman as they were going to go to Denmark as, it is assumed, due to issues associated with the German name and the first world war.

However Anna died from influenza in 1919 when she was living in Flood Street Bondi in Sydney (opposite to where I later lived) so, according to Anna's deceased estate papers, Max changed his name and used the ticket Anna had purchased (with a loan from Ferdinand's Estate) to accompany his mother Dorothea. According to Anna's estate papers Dorothea was very ill and frail and died from cancer in Denmark. As Anna stayed on in Copenhagen after Max returned to Sydney I assume she went home (Copenhagen) to die.

I have obtained Dorothea's probate details which can be found on this website in Part G of ***"Index of Family documents forming the background to the Schliemann Family Tree"***.

Max Sleeman married Trixie and they had a son Keith and a daughter Joan Sleeman. Trixie remarried after Max died in 1940 and her name became Mrs. Gaythorn Gee and they lived in Northbridge in Sydney.

Joan Sleeman married Francis Wesley Arthur Ward from Cootamundra and they lived in Sydney.

Venzel was the oldest of the family and he married Rachel Holzhauser in 1909 but divorced in 1920. They had two daughters, Selma Dorothy (1910) and Beryl Gladys (1912).

Selma married Edward J Mitchell of Padslow. They had two sons – John & Paul.

Beryl married Bruce Currie, but later divorced.

Venzel remarried in 1926 to Alice Ann Harris. I understand Alice began working in the Laundry which is how she met Venzel.

They had two sons Ronald & Barry.

Ronald had two sons after marrying Joan Trevillien: Gary & Alan.

Alan married Carolyn Louise Thomas and they live in Dover Heights. They have 2 children, Katharine Louise Schliemann and David Thomas Schliemann. Katharine married Andrew Wood and had a son Thomas Alexander Schliemann and are now divorced.

After Ron and Joan divorced, Ron married Patricia Drury and they had two daughters – Harriet & Brooke both of whom are now married with families.

Joan and Ron divorced and she married Brian Richardson and after living in Melbourne they bought a small farm near Malmesbury Victoria.

Barry married Kay Annabel of Nimmitabel near Bega and they had 4 children: Mark, Michael, Craig (1971 to 1975) and Jan Simone (1961 to 1977). Craig (1975) and Jan(1977) have passed away.

Barry passed away in 2014 and Kay in 1995.

The supposed connection to famous archaeologist Dr Heinrich Schliemann.

At the start of the family tree research it was assumed we had a connection to the Archaeologist Dr Heinrich Schliemann based on a letter from Heinrich to Ferdinand.

The original letter has been misplaced at some stage (all I have is a copy of a translation) which reads:

English Translation of letter written by Dr. Heinrich Schliemann, world-famous Archaeologist & man of letters, to Ferdinand W. Schliemann., Greece in November, 1881.

Cousin, in answer to your letter of the 18th September:we originally came from Gresse near Boitzenburg, Mecklenburg, where my grandfather was a preacher.Your grandfather whose picture hangs before me now, Adolph Schliemann, entered the Danish Army in 1805 and advanced, through his superior brain power and iron determination, in one year to First Lieutenant in the regiment of the Queen of Denmark, and married the pretty daughter of a rich general with whom she had a son, your father.Nelson's bombardment of Copenhagen in 1806, a splinter of a cannon ball struck him in the shoulder which caused an incurable wound which in a few years, I believe in 1808-9, caused his death., he left his gold watch to my uncle Schliemann. Your grandmother gave her consent to this gift but later through lack of correspondence all trace was lost of her.grandfather died in or near Itzebar where it appears he had property.is all I can tell you, with happy good wishes for your future welfare.cousin,Schliemann.

This is no longer believed to be correct but it has been established that Adolph August Franz Schliemann who was born in Gresse, Germany which is south of Hamburg and near where Dr Schliemann lived was a relation of Dr Schliemann. Adolph was also a lieutenant in the Danish forces and while he died in 1817 in Gluckstadt which is near Wilster in Germany he only had one son who died aged 1. I note that while there are now no people with the name Schliemann living in Wilster there are a number in the surrounding district.

Research has definitively shown that Ferdinand and Henry's father was Peter Schliemann who was born in Wilster Germany in 1810 and was from a long line of tenant farmers and who moved to Copenhagen where he became a master shoemaker. Peter's father (Ferdinand's grandfather) was Hinrich Schliemann -see Part C of "*Index of Family documents forming the background to the Schliemann Family Tree*" with Peter's birth details recording his father as Hinrich Schliemann of Wilster and so not Adolph August Franz Schliemann.

It appears that after the English attacked Copenhagen in 1801 and again in 1807 (The Battle of Copenhagen- see Wikipedia) in which the Danes were defeated, they lost their navy in the terms of surrender. What followed was as downturn in Denmark's fortunes due to the loss of trading ability (as well as the 2 wars with Prussia -Second Schleswig War 1864) and Denmark never really recovered until the 20th century so that in the 1830's many farmers left the land and went to Copenhagen and elsewhere looking for work.

This may have been why Peter left Wilster as a farmer and went to Copenhagen looking for a new life.

Of course with the discovery of gold in the USA many Europeans emigrated and this may explain the number of Schliemann's in the USA.

At that time some of the the area north of Hamburg was German but contolled by the Danish crown until the Second Schleswig war between Denmark and Prussian and Austrian forces.

Landrecht verändert sich

Im Osten der Stadt entstand ebenfalls eine neue Siedlung, und zwar entlang der Langen Reihe in der Bischofer Ducht. Vor allem Tagelöhner und Handwerker siedelten sich in der Langen Reihe an. 1657 wurde dort das von Rheder gestiftete Armenhaus für 8 Witwen aus dem Kirchspiel und 2 Witwen aus der Stadt gebaut und unterhalten.

Wilster

The red sign is where Wilster Germany is located. All the area from Flensburg to Hamburg (Schleswig Holstein) was under Danish control until the Second Schleswig war against Prussia and Austria in 1864. Peter Schliemann moved from Wilster to Copenhagen in the 1830's

Hans Heinrich Schliemann, Ziethen,

In 1833, Wilhelm Heinrich Gottlieb dies, his widow Catharina married 1835 Sadler, the marriage is childless. The data are still not all complete, the so far resulting outline with the essential life data is attached in readable form below. The individual data will be to deliver if the outstanding issues have further clarified:

(3 sides for table, still sticky!)

Explanation of the lists

Explanation of the data base

The data come from first 1939 German sex book band 105 mm (at the same time "Mecklenburgisches Geschlechterbuch volume 4") and the addenda to the municipality of 1.9.1938, which were identical as a special for the family; another handwritten records (+) Hans Erich Schliemann from the stage to the creation of the sex book prior to 1937, located in the "family archive (see below)", as well as later additions to my grandfather Wilhelm Schliemann (+).

In the last 15 years the information were further complemented through surveys and feedback from the family and from the resulting cross of my own intensive research on the families Maercker and wild-caught (Deutsches Geschlechterbuch volume 88 at the same time "Mecklenburgisches Geschlechterbuch volume 3" by 1935 and the supplements).

Personal data of the family exist today about 1700 Schliemann-1, which means additional ca 500 so far not to associate persons of the name Schliemann, more than 1/3 as contained in the publication from 1939, (without living after phone CD, see below).

Although in the past I reviewed to supplement and control of the data was asked of return and in particular the completeness has remained unfortunately quite poor. Therefore, the request as far as possible to add all the data, and to give feedback again.

To note that only the existing contents are on listed, empty content and rows according to the pattern shown below, complete is basically, are not printed, to save space.

The desirable integration of newer photos, especially the born after 1939, could not be realized because despite repeated requests (including in the invitations to family day), no shots were fired.

It is striking that the winners of the two oldest coat of arms are otherwise not known to us, they belong to but certainly because of the coat of arms somehow our Schliemann family. Which is not necessarily in our own ancestors number (Anna Schliemann and her son Hans) to have completed or at least in a closely related page line needs the social rise of our clan is Schliemann and therefore the acceptance of a coat of arms.

The next oldest coat of arms is located on the beautiful, but unfortunately very ceded gravestone on the altar site of St. George's Church in Wismar, the Brewers Hans Schliemann **1671/1673** for his two deceased wives had made over the years. Hans Schliemann bought this gravesite before 1645 {gravesite St. Georgen page 473 No. 26 in the Council archives Wismar} on the stone the Schliemannsche coat of arms and the two women of the Hans Schliemann, as well as inscriptions over their deaths are, in the corners of the stone the four evangelist symbols. Hans Schliemann has can therefore make this stone after the death of his second wife ahead of his are. The two women will be been buried in this plot. Hans Schliemann had yet a second grave site in the St. George's Church {grave sites St. Georgen page 541 No. 60}. the gravesite until 1945 under the stalls, was not so clear. Maybe the gravesite in the now ongoing restoration work has become after the destruction of the Church in 1945 visible. An eventual inscription could be of interest to family history. This coat of arms also a fish, the other is divided from top to bottom a box the man repeated as the crest.

The most beautiful coat of arms of older time was located on the Groning'schen Pew in the Church of St. George. This Chair post bought 1670 Hans Schliemann. This post by heritage at Engelbrecht Schliemann (VB) to a part and two parts of Anna Margaret Groning, nee Schliemann (IV4) went to his death. The Groning were then on their part to build the mentioned Pew {Council archive Wismar, Chair location, St. George Seite 218}. A splendid Baroque wood carving dating back to **1674**. Of the Pew, a cheek with the Schliemann'schen coat of arms and the year 1674 and the other half with the Groning'schen coat of arms was received. Here is the coat of arms for the first time, as subsequently informed then ever, not more. Is the man in the water, it floats left the fish themselves out of the water directing to.

Unfortunately, both cheeks in the destruction of the Church were lost in 1945. Wilhelm Schliemann had searched the bombing yet in the wreckage the next morning, but found nothing. (The part of a cheek with the Schliemannschen coat of arms is pictured in a German sex book band 105 between pages 312 and 313). Several replicas of the coat of arms in wood exist but in our family (including Gerhard Schliemann (Xlu) left for his sons Wilhelm (XIIo) and Walter (XIIp) a copy in wood carving, William copy today at his grandson Christopher Willem Engelbert (XIIo3. 2) in South Africa, by Walther's copy, his wife Kathe, born Gaman many years ago made some prints, which were offered in the family.) The matrix aimed allegedly at Axel Schliemann, Hamburg (XIIo4. 4), his.

[It should be noted that appeared in a newspaper article of the Mecklenburg habit by the 26.6.1937 a report on the 71jährigen woodcarver Wilhelm Brehm in Wismar, large forge road, in which among other things on a commissioned work for a family (?) Schliemann) was reported in

GieBen. It was a chair with high backrest, which gave the Groningsche coat of arms including the above it in the head of the cherubs. Neither the principal can be still so clearly determine the whereabouts].

In the aftermath, the coat of arms, in particular as a seal on documents are piling up now. As mentioned above, a **second colored glass window** with our coat of arms in the Wismar Museum is preserved with the inscription **John Schliemann** without year. It can be only the eldest son of Hans Schliemann, namely the Brewers Johannes Schliemann (VA) living **until 1709** in Wismar

Then but something very strange happens. The **brothers Engelbert Schliemann**, pastor in Kirchdorf Poel and progenitor of the Kirchdølfer tribe (VIIa) and the merchant **Gabriel Schliemann** in Rostock, progenitor of the Rostock tribe (VIIb) **share** is so to speak **the coat of arms:**

- The **Kirchdorfer** takes root in the future only **the man** in the coat of arms shields,.

- the **Rostocker** root leads only nor **the fish**, but now two vertically, averted fish,.

While both tribes retained the man as a crest.

Engelbert already 1735 seal on a grant application from Putbus (Council archive Wismar), only with the man in the coat of arms in this form. His son, Pastor David Schliemann in Gresse (VIIIa) undersiegelt with a equal designed coat of arms of the annual parish register transcripts (Schwerin State archives, or upper Church Council Schwerin), as another son as a notary public, the Mayor Johann Schliemann in Boizenburg (VIIIb) {Schwerin State archives, City-operated Boizenburg, process Angels contra Ropa, 1794}. In the recent Behlendorfer main branch of this tribe the memory of the coat of arms over the years is lost however, probably as a result of the early death of the ancestor of this branch.

[The notary Christian Schliemann in Rostock led in 1636 a coat of arms: shield divided into the upper box a rose down one fish, Crest the wild man (family papers were to 1935 in the Schwerin archives).]

In the Rostock master a Berloque was until recently (the b = less jewelry at (clock) necklaces, fashion in the 18th and 19th century) probably by pharmacist Thomas Schliemann in Gnoien (VIIIe), which led the fish in the coat of arms (where she remained, 1997 is unknown) get. A Signet of Pastor Wilhelm Schliemann (Xn) in Spomitz with the same coat of arms is in my possession (see "family archive, unter 1b). In the Lubeck St. Ann monastery a glass window with the coat of arms of the pharmacist Gustav Schliemann, head of the St. Ann monastery, is preserved, leading only the fish in the shields (Civic Heraldry Guide by j. Siebmachers Wappenbuch, 5 vol., fifth Division of j. sieve maker-lrüge and general book of heraldry, Nuremberg 1895 (Gustav Schliemann, 1890 Chief at the St. Ann monastery in Lubeck).)

Since the thirties of this century, as the history of our coat of arms became known, all members of our family return the original coat of arms with the man and the fish in the coat of arms and the man as a crest.

III. completion is the essential briefly summarized:

A name and coat of arms of a family are symbols of same. The name of Schliemann is a place name and indicates that the family in the wake of West East colonization of the area of the Schlei is migrated to. The choice of this name was possible for other emigrants. It so happens that there are today several clans of the name Schliemann, where the common name only a reference to a common geographic home not means, but on a blutsmaBigen connection.

Our family was established in the 15th and 16th centuries as a Huckster clan in Lubeck and led no coat of arms as members of the second level. But a House brand of Schliemann is preserved. With the relocation of a branch of this clan of Krfuner soon the local upper urban gender leap in 1600 in the room Wismar-Rostock. In the aftermath of our family, therefore put to a coat of arms. This leads in the coat of arms based on the name of a fish and a man who is repeated as the crest. The Kirchdorfer tribe later led only the man, the Rostock tribe in the shields only two fish. Today we will cause all the original coat of arms of the characters that we all same family Schliemann belong to, the only this name, who leads a coat of arms.

"Discoveries"

About Adolf were me different questions to answer to slides, dealing with enquiries from outside the family as well as in the family. In January of this year I received also the request of Hans Heinrich Schliemann from Ziethen, which already once had contacted before the turn of Eberhard, to get his affiliation with the Schliemann-I family and the Troy researchers confirmed. A more extensive exchange of COITespondence had emerged from it and is not yet completed. But the intermediate results the main results in the near future:

Hans Heinrich Schliemann can now return his family to a **(Heinrich Gottlieb) Wilhelm Schliemann, who married CA(r)stenbein at the 23.10.1800 in Lubeck Juliane Henriette Lorenz Church and was the tenant of Neuhof near Lubeck.** The Churchbook entry is only on William, but by the later one (death of 1st wife, another marriage and his death certificate), it is recorded that it is Wilhelm Heinrich Gottlieb Schliemann. Who is this WILHELM Heinrich Gottlieb, which I will mention here and in the future the "Lager"?

According to our documents, i.e. the maBgebenden(?) German sex book volume 105 of 1939, S. 323, WILHELM Heinrich Gottlieb Schliemann the 9.3.1776 in Garcia as the son of Johann David Schliemann (VIIIa), pastor of Gresse, baptized. in 1798 he (after the registration of the church book) is as Godfather at the christening of the illegitimate child of his sister in Zahrenstorf "Secretary in Bliicher". In 1800 he is in the address book of the city of Lubeck as the lessee of "Neuhof", listed a Court of Office of horse buyers (who had since 1762 in their possession) this Court before the Holstentor in Lubeck. He married at the 23.10.1800 in Lubeck, Lorenz Church, the Juliane Henriette **KARSTEN**. He is civil to

Lubeck since 1801. Apart from the fact that he in the testament of the uncle, Mayor to Boizenburg, Johann Christoph Schliemann, (R VIIIb), is considered by the 7.11.1811, i.e. that he had more contact at this time with the family and lived, known us nothing further about him and his family. Also he not as Godfather continues his siblings children at the numerous, or are we entries not known so far. It is strange that present in the few documents of the Lauenburgers have listed godfather or witness zero back into the family Schliemann. Because generally it was formerly common, at least in the siblings, to act as godfather or witness, also was in the parish register entries like to reference on "honorific" parents taken, such as the birth of the "Garcia" Wilhelm Heinrich Gottlieb: "Pastor son". Unfortunately, are in the years 1817-1823 in the Lager church registers with registered no Godfather, a proof of further relations with the Schliemann-I family is therefore hindered over the Godfather name.

Because through insight in the parish register, it cannot be excluded that the same or to this day of two different people with the same name "Wilhelm (Heinrich Gottlieb) Schliemann" married, seems to be at the former publication of the sex book in 1939 an error/accident to have crept. The Churchbook entry is up to "Carsten..." clearly legible, the rest is squeezed to the brink and leaves "when..." is still clearly in the copy. Thus, the two seem to be the same William (Heinrich Gottlieb), not yet a later death certificate would be against the, indicating his death by breast disease at the age of 67 in 1833. After his birth year was 1766!. The year of birth of Wilhelm Heinrich Gottlieb Schliemann (K VIIIa2), son of the pastor from Garcia, is specified but - after the Church confirms the Ratzeburg Cathedral archive - 1776 with. This corresponds to the entry in a German sex book. Is there a false copy of Church giving information or an incorrect indication of the bereaved here may be second wife out of ignorance? Unfortunately, a more age could be found so far on any of the other instruments to his 2nd marriage and his children. However, is the large number of matches provisionally assumed, that both people are the same!

The career path of Gresser = Lauenburger Wilhelm Heinrich Gottlieb Schliemann is also remarkable: Secretary in Blucher, tenants of a farm before Lubeck and then later in Lauenburg Ewer driver and working man (possibly also the legacy of the 200 reichsthalers by his uncle can have facilitated the change him in 1812). Later he in the Lager suburbs, called "under the mountain", "over the mountains" or "the mill mountain" what was found still no other evidence other than the information contained in the documents (death certificates and marriage certificates of the widow).

from his 1st marriage with Juliana Castenheide

After the marriage in October 1800, a stillbirth occurs in August 1801 and until 1816 Julianes death, so far no other children are found. Catharina Hedwig Freisch in February 1817 children follow after the 2nd marriage between 1817 and 1831 weitere 7 here in the overview:

English Translation of letter written by Dr. Heinrich Schliemann, world-famous Archaeologist & man of letters, to Ferdinand W. Schliemann., Greece in November, 1881.

Cousin, in answer to your letter of the 18th September we originally came from Gresse* near Boitzenburg, Mecklenburg, where my grandfather was a preacher. Your grandfather whose picture hangs before me now, Adolph Schliemann, entered the Danish Army in 1805 and advanced, through his superior brain power and iron determination, in one year to First Lieutenant in the regiment of the Queen of Denmark, and married the pretty daughter of a rich general with whom she had a son, your father. Nelson's bombardment of Copenhagen in 1806, a splinter of a cannon ball struck him in the shoulder which caused an incurable wound which in a few years, I believe in 1808-9, caused his death., he left his gold watch to my uncle Schliemann. Your grandmother gave her consent to this gift but later through lack of correspondence all trace was lost of her. Grandfather died in or near (Itzehoe) where it appears he had property. is all I can tell you, with happy good wishes for your future welfare. cousin, Schliemann.

* This word was translated as Greece, in typed form, and a word been handwritten over it - "Gresse" - the first letter is not readable

Note from Alan Schliemann is that Heinrich Schliemann did come from Gresse in Germany which is around 120 km south of Wilster where the Australian Schliemann's originated and Itzehoe is 9km from Wilster. Actually Adolph died in Gluckstadt which is nearby. Thus while we have a provable heritage to Peter Schliemann and before so Heinrich is incorrect the area is common to the Schliemann name.

The records before the marriage of Hinrich Schliemann (see point 1) do not give much more. 4 Baptisms and 2 weddings for the name Schliemann are to be found in the register. however, there are no connections. So could the parents of Peter Schliemann from the two weddings of Johann Schliemann revealed. The assignment can not be considered absolutely secure.

5. Taufregister Wilster 1710/17, Hinrich Schliemann
6. Taufregister Wilster 1695/12, Tewes Schliemann
7. Taufregister Wilster 1696/13, Peter Schliemann
8. Taufregister Wilster 1696/33, Stina Schliemann
9. Taufregister Wilster 1699/38, Trina Schliemann
10. Taufregister Wilster 1700/36, Hans Schliemann
11. Taufregister Wilster 1702/82, Anna Schliemann
12. Taufregister Wilster 1704/54, Stincke Schliemann
13. Ergänzte Ahnentafel

Ergänzend wurden einige Daten zu Hinrich Schliemann (*1710) herausgesucht. Sielke war als Tochter von Hinrich Schliemann (*ca. 1674) falsch. Als Vater ist im Taufregister Johann angegeben. Zur eindeutigen Klärung wurden alle Kinder von Hinrich Schliemann gesucht.

Die Aufzeichnungen vor der Ehe von Hinrich Schliemann (s.o. Punkt 1) geben leider nicht mehr viel her. Im Register sind 4 Taufen und 2 Hochzeiten zum Namen Schliemann zu finden, allerdings ergeben sich keinerlei Verbindungen. So könnten sich die Eltern von Peter Schliemann aus den beiden Hochzeiten von Johann Schliemann ergeben. Die Zuordnung kann aber absolut nicht als gesichert betrachtet werden.

Bei weiteren Fragen können Sie sich gerne wieder an uns wenden.

Mit freundlichem Gruß aus Wrist

Bastian Didszuhn

Burial of Hinrich 1830

Dear Alan,

sorry for responding that late, I should have answered your mail immediately after my holiday.

According to the answer of Karin, this was the only cemetery in Wilster at that time. So in my opinion, if he died and was buried in Wilster, his grave has very likely been there. Sadly there is no grave register I know, so I can't exactly tell if and where Hinrich Schliemann was buried at the Stadtpark cemetery.

Mit freundlichem Gruß

Hi Bastian,

My email to you below is rather wordy. To simplify would you say it is reasonable to assume Hinrich Schliemann, who died in 1830, would have been buried at Stadtpark in Wilster?

Bastian,

I appreciate your tremendous help in the past but ask for your forbearance and another question.

I have received the email below from Karin. I assume as Hinrich died in 1830 (attached) he must be buried in Stadtpark as it is called so there is no use in writing to you as she suggests? Can you confirm there is nothing at the Archives that would say where he was buried or do you agree it would have been at the old cemetery now called Stadtpark.

If that is the case the search ends here and I will just seek confirmation as to what happened to the remains of all buried. I appreciate cemeteries over 100's of years must have grave upon grave and all I want to know is if I visited Wilster I could go to the park and at least know I am where he was buried. My great grandmother was buried in Assistent cemetery in Copenhagen and while it is now closed as such and open for tourists with any headstones removed, they assure me that her remains are still there.

Hello Alan,

you are asking for a history about Landrecht in english, but regrettably is that not available.

The blue circled area at the screenshot you 've sent me, is really the position where the old cemetery (since 1604 to 1859) was placed, but today it is a public park without graves, it is called "Stadtpark". After 1859 a new cemetery was established, that's what you can see in google maps on the eastern edge.

I have asked my college from the administration of the new cemetery for records about "Schliemann", but she didn't find anything.

The time before 1859 (the old cemetery) of records about graves is archived at the Kirchenkreis-Archiv (E-mail: archiv@kk-rm.de), please asked there for your concern.

With kindly regards

Karin Schröder

Karin

Thank you very much for going to so much trouble. Have you ever seen a history of the area like the

page you sent on *Landrecht verandert sich* but in English?

I appreciate that is unlikely but I can only ask. I have looked at Wikipedia but it is very sketchy.

I have a screenshot from Google Maps and have circled an area in blue that seems to be where the

cemetery was on the 1880 map you sent. Would that have been the likely place for Hinrich to have been

buried? If so is it open to the public so if I visited the site I could at least be in the area Hinrich was

buried. Again with your guidance I now know at least the streets where they lived. I note that from your

written comments that Metta, a brother of Hinrich, died so young. Peter Schliemann who at some stage

moved to Copenhagen had a son Friedrich Wilhelm Ferdinand Schliemann, my great grandfather,

who moved to Sydney Australia and lost 4 children under the age of 1 in the 1880's and my

brother and I have just put up a headstone on their previously unmarked grave at Waverley

Cemetery in Sydney, near where live in Dover Heights.

People died so young, it is heartbreaking.

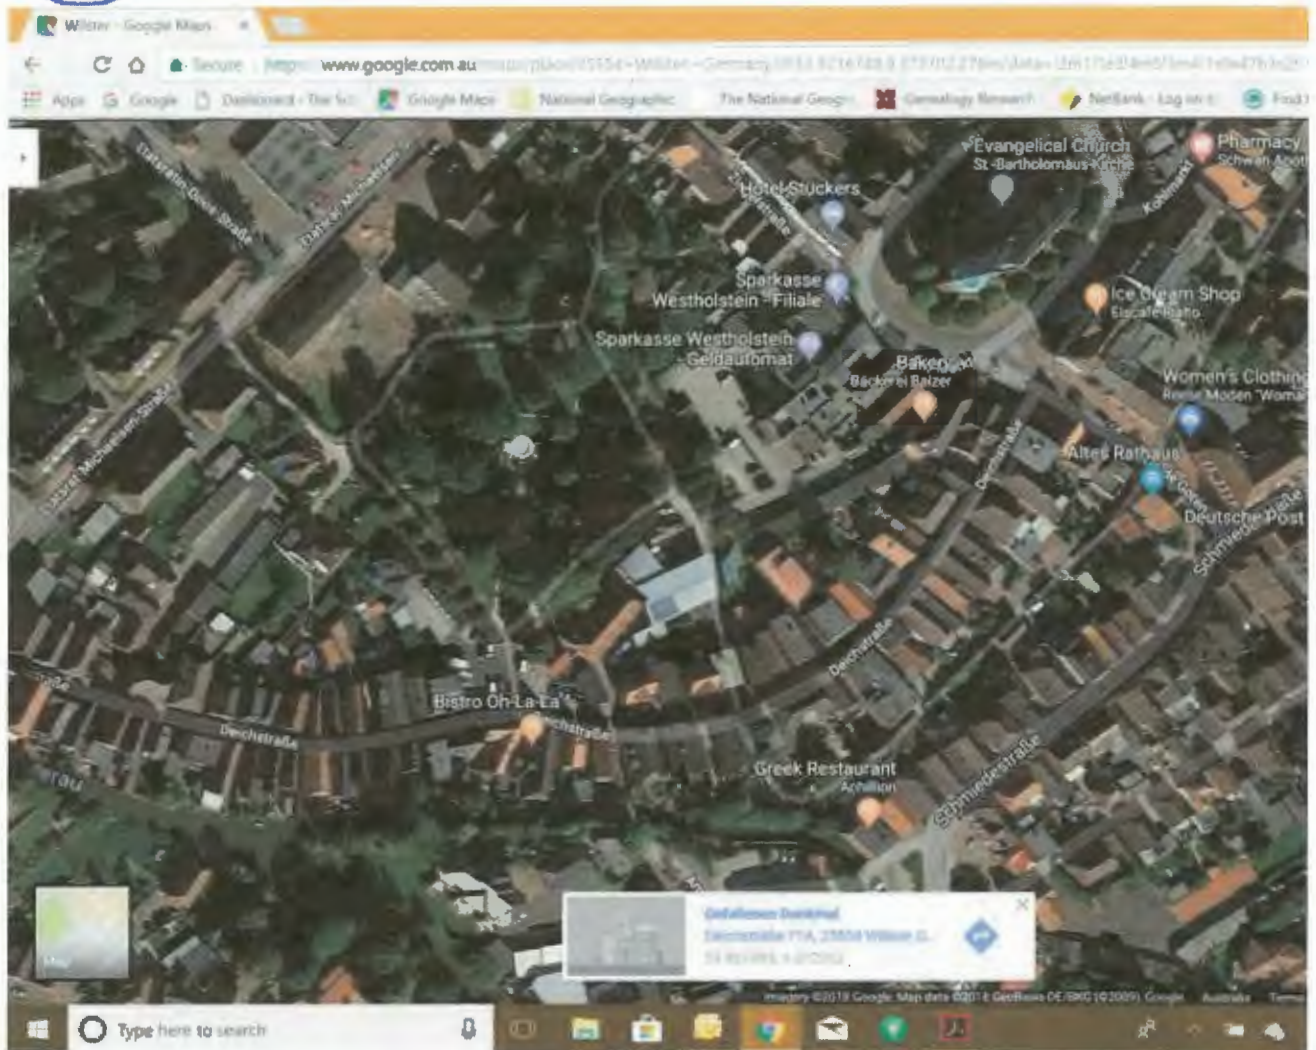

I note in Google maps there is a large cemetery on the very eastern edge of Wilster with a church named

Ev.Friedhof so I assumed that was the only cemetery.

Regards

Alan

Dear Alan,

thank you for your mail.

In my family-register I found several people with the name "Schliemann". I have make same copies, you can see them in the attachment.

Very interesting is the last entry about Metta Schliemann an her father Hans Schliemann, which had been living in 1763 in "Langereihe", a street of the community Landrecht, near the town Wilster (in 1893 was "Langereihe" incorporated to Wilster).

So we can suppose that a family named Schliemann has been resided there for many years (until the birth 1810 of your ancestor Peter Schl.)

Subsequently I searched in the Register for property, but alas I couldn't find any entries about

"Schliemann". Probably it wasn't registered because Hinrich/Peter Schliemann were only tenants.

I'm sorry that I couldn't write you more exactness.

Kindly regards

Karin,

In the email below from Bastian he said you may be able to assist me in locating where my relative

Hinrich Schleimann (Schliemann) might have been buried and also lived.

Bastian said below that you found two pages relating to Schliemann with some information and I should write to you about this.

Can you please tell me how I might obtain a copy of that information.

Can you also suggest where I might obtain a copy (purchase) of a map of Wilster around the 1830 period

(in fact any old map) as Bastian also said "Another thing that might be helpful: In the Death record of

Hinrich Schliemann (1830/34) he was living in "Landrecht" near Wilster and his father was living in the

"Langereihe", that's a street in Wilster nowadays.

I do not speak any language other than English otherwise I would call you.
Hoping you can assist me further,

Dear Alan,

thank you for you mail. Today I spoke to Karin Schröder of the archive of Wilster and Wilstermarsch. The only thing that came to her mind regarding your request was a familyregister of Wilster and after looking for the name Schliemann she found two pages with several information. I don't know if there are any addresses mentioned. But you should contact her to get those information:

I appreciate all correspondence has been with Willibald Schliemann but as he is
recovering from eye
surgery I thought I would ask you directly if you could suggest anyone that could tell me
where I might
find the property Peter Schliemann lived on after his birth in 1810. The attached
translation refers to
his Father Hinrich being a tenant farmer behind the town (Wilster?) and all witnesses
were (as
translated) "from behind the low-lying land dike".

If I was to travel to Germany and Denmark (I have located where my Great Grandmother
was buried in
Copenhagen in 1921) it would be good to drive to Wilster and at least know it was
somewhere I could
locate –however approximate.

Do you have any suggestions? I recall some correspondence saying it was Landrecht which
was East of
Wilster

Subject: Can you suggest a person who can, at my cost, undertake some research?

Thor,

Many years ago Horst and you communicated with my mother Joan Richards (was Schliemann) (now passed) on family history as it was suspected we might similarly be a distant relation to Heinrich Schliemann as you and Horst.

This appears not to be the case and Willibald Schliemann has been invaluable in having archives found in Wilster Germany that shows my Great Great grandfather was Peter Schliemann.

*Schliemann (Schleemann), Peter (3), 1837 Gardist bei der Königlichen Leibgarde zu Fuß (Guardsmen of the Royal Life guard afoot), 1842 Schuhmachergeselle (shoemaker companion) 1850 Schuhmachermeister (shoemaker master), * 06.04.1810 Wilster, now district Steinburg (Schleswig-Holstein) Germany, ~ 08.04.1810 Wilster, now district Steinburg (Schleswig-Holstein) Germany, Taufpaten: Godfather: Johann Schade, Otto Micheel, Marten Maaß – all behind the low-lying land dike, St. Bartholomew's Church, +*

Willibald has worked on the basis that this Peter Schliemann was the one who was the father of Friedrich Wilhelm Ferdinand Schliemann and so Heinrich Schliemann (Archaeologist) was it would seem wrong in suggesting someone else.

As Jan Kristian Sørensen (see below) cannot find where Peter died without some very manual searching of all of the churches in Copenhagen I will have to look at an alternative.

If you have any suggestions I would be grateful for any ideas you may have as I was awaiting that information before I ventured to Germany and Denmark on a holiday.

Jan has done some work but without charge and I cannot expect him to do any more. Do you know who might be able to track down what happened to Peter and his wife. It is of course possible they emigrated as did two sons to Australia. In fact in another email Jan has stated that "A great number of my family migrated during 1840 - 1930 to America - Argentina and Australia and the way was via Hamborg. I've not found any base on net to find more that way."

Hej Alan

There is a County Protocol listing occupations that require a license. Checking the book for licensed shoemakers in Copenhagen around the time when Peter was first mentioned as a shoemaker, shows:

7 October 1843 Peter Schliemann paid 5 Riksdaler (about \$5). There is no more information in that book.

In the 1885 census we find one family Schliemann with Peter Herman and Emanuela Nicoline and 5 children, all living in Gammel Kongevej 29. Is that address of interest? Peter Herman was a master carpenter in 1880, and a tobacco merchant in 1885.

23 Nordre Frihavsgade was built in 1877 and is still there. The building is valued at DKR20,500,000. There is a toyshop there now, called Petit Monde, and a Thai take-away called Rice & Rice.

There is an index of foreign workers arriving in Denmark. There is no Schliemann there, only one Adam Schliesmann born in Bavaria 1863 that arrived in 1884. That could mean that Peter was born at a time when Holstein was part Danish, part German, and may not have been treated as a foreigner when he moved to Copenhagen. The Danish census of 1803 includes all of Holstein.

An index of citizenship mentions Johann Franz Max Schleemann born 1897 in Lübeck. He came to Denmark in 1910, and became a Danish citizen in 1931 as a mechanic. He lived in Tønder.

The Copenhagen Museum could be worth a visit. You could contact Peter Jensen, a Danish Historian, who lives in Brisbane. He has done a lot of research in Scandinavian immigration to Australia, but has also lived in Copenhagen for many years. I visited him in Copenhagen in 1993. One of his publications shows a photo of Copenhagen harbour in 1878, where the emigrant ships left from. That page is <https://orsted-jensen.weebly.com/scandinavians-in-pre-1914-australia.html>

There are contact details on his home page <https://orsted-jensen.weebly.com/robert-oslashrsted-jensen---home-page.html>

Steinar,

Thanks for all of that work. I sent an email yesterday about possible trade societies and will leave that with you to respond to if you can. One last question was whether you can find out if the building in which my great great grandmother dies when visiting Copenhagen in 1921 was still there. Do you know if there would have been any

controls over people moving from Wilster in Germany to Copenhagen as Peter did sometime between 1810 birth and 1837 when he was married in Copenhagen.

Let me know if I need to transfer funds.

Hej

Alan

PS do you have any tourist sites I should see when in Copenhagen such as old ruins and Danish History. My wife and I are doing the usual palaces and canal tour as well as a guided 3 walk with a local. Not going to bother with the Mermaid though. We are staying at Scandic Front so next door to Amalienborg Palace. I see now why Amalie was so common for Christian names.

Dear Alan,

sorry for responding that late, I should have answered your mail immediately after my holiday.

According to the answer of Karin, this was the only cemetery in Wilster at that time. So in my opinion, if he died and was buried in Wilster, his grave has very likely been there. Sadly there is no grave register I know, so I can't exactly tell if and where Hinrich Schliemann was buried at the Stadtpark cemetery.

Mit freundlichem Gruß

Hi Bastian,

My email to you below is rather wordy. To simplify would you say it is reasonable to assume Hinrich Schliemann, who died in 1830, would have been buried at Stadtpark in Wilster?

Regards

Alan

Bastian,
I appreciate your tremendous help in the past but ask for your forbearance and another question.

Ref. Peter Schliemann's funeral in 1864

It wasn't possible to find any information regarding Peters tomb.

However the archive for "Sankt Petri Tyske Kirkes" (German parish) holds a register for funerals outside "Nørreport". It contains a list describing sold tombs in the period 1839/40-1860/60. Hence the 4 pictures below.

The family has likely been buried in the same place, perhaps this was useful.

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.

Figure 1. The effect of the number of trials on the number of correct responses. The number of correct responses (Y-axis) is plotted against the number of trials (X-axis). The data points are connected by lines, and the error bars represent the standard error of the mean. The number of correct responses increases with the number of trials, reaching a plateau around 10 trials.

Description

Vital records—records of births, marriage, and death—are the basic building blocks of family history research, and this database features some of the most comprehensive indexes available of historical Australian death records. These indexes were created by Australian registrar's offices after civil registration of births, marriages, and deaths became law in the mid 19th century. [Learn more...](#)

John,

I just wanted you to know that I have obtained details of the death of my great grandmother Dorothea Schliemann (Jagd) who changed her name to Sleeman before travelling to Sweden and Denmark where she died in December 1921.

I have found her death certificate in Copenhagen and am awaiting a response from Assistens Cemetery to confirm her burial there.

I am happy to provide any information if you wish.

Third smash victim dies

A third passenger in a car which hit a power pole in Lovell Street, Eastwood, early yesterday morning died in Ryde Hospital last night.

He was Rodney Wignell, 16, of Northcott Street, North Ryde.

Two girls, Vicki Hollohan and Jan Schliemann, both 16, also died. All were students of Ryde High School. Four youths were injured.

Stephen Bray, 18, of North Ryde, an apprentice painter and decorator, appeared before Mr K. Fitzpatrick, SM, in Ryde Court of Petty Sessions yesterday.

He was charged on four counts of culpable driving, one of negligent driving, one of driving in a manner dangerous to the public and one of driving with too much alcohol in the blood.

Mr Fitzpatrick remanded him on \$500 bail to appear in the City Coroner's Court on October 27.

HERITAGE ASSESSMENT & STATEMENT OF HERITAGE IMPACT
PROPOSED RESIDENTIAL DEVELOPMENT
160 OXFORD STREET WOOLLAHRA

Introduction

This Heritage Assessment and Statement of Heritage Impact has been prepared by Robert Staas, Director of Noel Bell Ridley Smith & Partners architects, to accompany a Development Application to Woollahra Council for the demolition of the existing Woollahra Antique Centre and the erection of a new residential development as shown on the drawings prepared by Ercole Pallazzetti Pty Limited dated May 2002.

Research into the history of the site has been undertaken consulting Land Titles information, archival Maps and Plans and information from the Sands Directory and by direct reference to the Schleimann family who operated the Parisian Laundry on the site for 70 years.

The Site

The proposed development site is located on the northern side of Oxford Street with a frontage also to Wallis Street Woollahra. The existing building is the second on the site replacing an earlier 19th century Baptist Church in the early decades of the 20th century. For many years the site was known as 'The Parisian Laundry' and in 1980 the building was modified and used by the Woollahra Arts & Crafts Centre and since 1986 it has been the Woollahra Antique Centre.

History of the Site's Development

This site incorporating lots 5,6,7 & 8 in Section G, is part of the 1864 subdivision of Upper Paddington undertaken by William Wallis & Charles Scott. The land was previously part of the Cooper & Levy, 'Point Piper Estates' and was transferred to Wallis & Scott in 1855.

Lots 5 & 6 of the estate were purchased from Wallis & Scott in 1869 by Janet Coutts but were not developed and remained vacant until they were conveyed to Ferdinand Schleimann, a laundryman in September 1906.

In 1908 Schliemann converted the leasehold title to Torrens title under the Real Property Act and soon after erected the 'Parisian Laundry' on the site. In 1952 the laundry building was substantially enlarged onto the adjoining site to match the character of the existing structure. Details of this and subsequent changes to the place are contained within the archives of Woollahra Council. The laundry continued to operate as a commercial operation up until 1977 under the control of three later generations of the Schliemann family.

Lots 7&8 of the Wallis & Scott subdivision remained unsold and vacant land. On the death of William Wallis, they were inherited by his sons, William Moncour Wallis and Nathaniel Wallis in 1887 and sold to Charles Laurie, William Calder and Walter Gilkes in 1889. It became the site of the Woollahra Baptist Church and the Rev Atken presided at the church erected on the site between 1891 and 1904.

A survey of the church property in the Sydney Water Archives shows it to have been a squarish building fronting Wallis Street with stone steps. The church itself appears to have been constructed of timber and a brick wall with a timber access stair was located along Oxford Street then known as Old South Head Road. The church adjoined Bowman's Terrace to the east and the vacant land owned by Janet Coutts and subsequently The Parisian Laundry to the west. The church is listed in the Sands Directory between 1891 and 1904 but is shown as being vacant in 1905-7.

The property was sold in 1904 to Albert James Nichol of Woollahra, a carrier and was operated by a sequence of carriers and manufacturers under lease from Nicol. It was probably used initially for the storage of furniture as there is no further evidence of another building on the site.

In 1938 the site was purchased by the Schliemann family's, Parisian Laundry Pty Limited, the timber building was subsequently partially demolished for the extensions to the original laundry in 1952 and the site became part of the commercial laundry works until 1977 when it was sold along with the adjoining laundry buildings to Junemar Nominees Pty Limited. By 1980, the laundry use had ceased and the place was converted as an Arts & Crafts centre. In 1987 it was transferred to Bakerland Pty Limited and is now in the ownership of Woollahra Galleries Antique Centre Pty Limited. The present use is as an antique display and sales centre.

The Existing Building

The existing building is an amalgamation of early 20th century portions and later additions to the laundry made in 1952 that were subsequently modified both internally and externally later in the 20th century. It presents a superficial 'Federation' period character to Oxford Street which has no actual architectural significance. In the Policy for the control of changes to facades and alterations to buildings in Bondi Junction, Paddington and West Woollahra, the subject building is indicated to be a building having limited conservation merit. (B). The demolition of these buildings is often not opposed but replacement buildings should by their scale and form enhance the existing street and townscape values in the Conservation precinct.

The present building makes little contribution to either of the streetscapes with the Wallis Street presentation being intrusive, while the internal changes made to the building have destroyed any potential heritage significance and any evidence of its previous use as a laundry.

The architect for the original laundry is unknown. The 1952 additions which mirrored the original facade and substantially modified the timber church structure were designed by W.A. Page Architect of George Street Sydney.

Subsequent alterations in 1980 and 1983 were made by William Bower Architect of Kingsford. They related to the conversion of the buildings to the Arts & Crafts Centre and involved substantial modifications internally and to the facades in both streets.

Heritage Assessment

The following heritage assessment is based on the criteria of the NSW Heritage office.

1) Historical Evolution

The site is part of the 1864 subdivision of Upper Paddington which created the street patterns north of Oxford Street and the lots on which the current building stands. It has some significance for its place in the development of the area historically and particularly as the site of the Baptist Church originally built in about 1890 that was demolished for part the current development in 1952. There is also some historical connection with the Parisian Laundry which operated on the site for 70 years and the later Antique Centre which has been a local landmark in the area for some decades. The level of such significance is low at a Local level and is somewhat intangible being best interpreted by documentation rather than by the surviving fabric.

2) Historical Associations

There are no particular associations with persons or events of significance to the development of West Woollahra. The former Church was not a particularly significant one and operated for a short period of time. The Laundry was a long established commercial business owned and operated by four generations of the Schliemann family from 1907 - 1977. The building has low significance for these associations at a local level.

3) Aesthetic values

The site has minimal aesthetic qualities, the building having been substantially modified on several occasions as identified in documents held by the Council. The present structure maintains a low scale and general 'period' character that is compatible with the adjoining terraces but would also be successfully replaced by another building. The architects associated with changes to the building are of no particular significance and the changes to internal and external fabric has largely destroyed the original design character.

4) Technological / Research values

The site may contain archaeological relics related to the earlier church occupation of part of the total site. The church was of timber construction but may have been raised on a brick or stone base to take up the differences in level between the two streets. The likelihood of the site containing significant relics associated with the Church is slight and detailed excavation is unlikely to realize any significant information. The laundry building in its current modified form is now unable to provide any meaningful information on the former commercial laundry use. The level of any research values is considered to be low.

5) Social values

There is no identified social significance associated with the place for any identifiable group in society.

6) Rarity

The building is not rare for its current use or its architectural expression.

7) Representativeness

The building is not representative of any particular class of buildings.

The building while having some minor local historic values relating to the development of the area generally, does not possess heritage values as defined by the NSW Heritage Act which would suggest that it is significant at any level for any of the established criteria. Its demolition and replacement with a new structure is acceptable.

The important constraints for the future development of the site relate to the context of any new structure amongst other listed heritage elements including the scale and character of the adjoining terraces on either side fronting Oxford Street and the general scale and

character of Wallis Street. The proposed development continues a terrace typology but with a distinctly contemporary character established by a more horizontal form and the use of simplified linear details. This approach is one recognized as being appropriate for infill development. Changes to specific details of the design have been made following consultation with Council's heritage advisor.

The Proposed Design

The proposal for the site has taken into consideration the surrounding scale and character of the residential buildings and proposes an infill development that continues that character of the surrounding area in a contemporary form. The building form is linear with regular balancing vertical articulation providing a classical symmetrical design to both Oxford Street and Wallis Street. It retains a direct scale relationship with adjoining buildings in both frontages being two storeys with attic and basement to Oxford Street and three storeys and attic to Wallis Street. The attic storey is set back to reduce bulk and is separated from the adjoining terraces to provide definition for the building. It is provided with a strong masonry frame and a sympathetic metal clad, pitched roof over. The higher portions of the roof are screened in close views in Wallis Street to reduce apparent visual bulk and in longer oblique views the roofs have been matched to that of the adjoining roof pitches for visual continuity. A central 'tower' element to Oxford Street defines the entry and provides additional articulation of the facades. Fencing to each street is provided by a masonry wall combining the use of sandstone and render with a metal palisade style fence that continues the local character but in a more contemporary way.

The finishes and colours are intended to reflect the traditional character of Woollahra and particularly that of the adjoining 19th century terrace buildings. Metal window sections have been selected which give a strong framing appearance to window openings and the proportions used are generally vertical for compatibility with adjoining heritage buildings.

Potential Heritage Impacts

There are no heritage impacts arising from the demolition of the existing building, its loss to the Oxford Street streetscape is minimal and the loss in Wallis Street would be a positive enhancement of that street. The new building provides a well-designed contemporary interpretation of a traditional terrace form that is compatible in scale and expression to the adjoining development in both streets. The set back attic level reduces visual bulk and provides additional modeling to the building. The fenestration patterns and proportions are acceptable in the context of the adjoining terrace development.

I consider that the infill building will provide a positive contribution to the streetscape of both streets while providing living units of a very high standard of design and amenity. I commend the application to the Council for favourable consideration.

Report:-

*ack'd
1-6-26*

I have knowledge of the estate of the late W.T. Holzhauser, the realty of which consists at present of land and four cottages at Candelo, and a piece of land in North Bega, being lot 25 section 3.

The houses in each case are situated on lowlying ground in the town of Candelo, said to be exposed to floodwaters, and in a bad state of repair.

The land comprised by lot 25 of section 3 is in a part of the town of Bega where there is no building activity, and it is very doubtful what success would attend a sale of such an allotment. Bega has many such unimproved allotments which in a part of the town which is progressive would be a readily saleable asset, but I would not consider the allotment in question to be worth much, and it might be a negligible asset. I note that the Council's valuation is £15 for rating purposes, however, taking the valuations as a whole, I am strongly of the opinion that the valuation is a fair one.

Interest in Estate of William Holzhouser, deceased.

Particulars of extent of deceased's interest are being
obtained.

In the Matter of the Estate of Rachel Mary Schliemann,
late of Bondi,
in the State of New South Wales,
deceased,

I, Isabel Holzhauser,
of 21 Carey St. Leichhardt,
in the State of New South Wales, Spinster,
do solemnly and sincerely declare that:—

I am a sister of the abovenamed deceased.

The said deceased was permanently domiciled in the
State of New South Wales. She left this State about
August 1924 in order to spend a holiday in Victoria
for health reasons. While in Victoria her illness in-
creased and it was necessary for her to go into Hos-
pital for treatment. She was in Hospital for nearly
twelve months and died there on the 18th. September 1925.
Deceased frequently expressed the intention of returning
to New South Wales when her health permitted and I know
it was her intention to re-establish her home in New
South Wales.

And I make this solemn declaration, conscientiously believing the
same to be true, and in virtue of the provisions of the Oaths Act
of 1900.

Signed and Declared at Sydney,

this seventh day of December,

STATUTORY DECLARATION.

I, MAXWELL FERDINAND SLEEMAN of Number 13 Coolgardie Street Willoughby near Sydney in the State of New South Wales, do hereby solemnly and sincerely declare as follows:-

1 I am the executor of the will of Aileen Rasmie Sleeman late of Bondi, Spinster, deceased.

2 At the time of the decease of my sister the said Aileen Rasmie Sleeman my mother Dorothea Sleeman was about to proceed to Denmark, accompanied by my said sister. My said mother was then extremely frail in health and advanced in years and both at her request and of necessity I accompanied my said mother to Denmark, after the death of my said sister.

3 I duly returned from Denmark to Sydney in or about the month of June 1920, and found on my return that a suit by originating summons was about to be instituted in the Supreme Court of New South Wales in its Equitable Jurisdiction touching the estate of my late father Ferdinand Wilhelm Schliemann, and the interest therein of my said sister.

4 The said suit was heard and determined on the twenty first day of December last and in pursuance of the replies made by the said Supreme Court to the questions in the originating summons contained I duly gave instructions to my Solicitor to prepare the accounts of my said sister's interest in the said estate of my late father, which accounts were involved and intricate and necessitated the employment of a qualified accountant for a great length of time to prepare the same.

5 Apart from the interest or income accruing due to my said sister from the said estate of my late father, there were no other accretions to her said estate from the date of her death to the date of grant of probate herein.

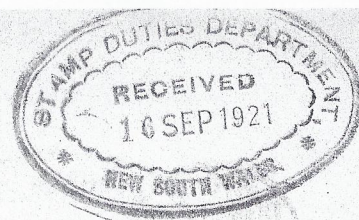

6 My said sister made no gifts to war or patriotic funds or charitable or other institutions during the three years preceding the date of her death.

7 My said sister had no investment in War Loans, nor had she effected any insurance for the payment of Probate duty or any Settlement Policies.

8 My said sister had no banking account and no interest in any banking account within three years preceding the date of her death, save her interest as aforesaid in the banking account of the estate of her late father.

9 There were and are no payments due to my said sister by any Friendly Societies, Lodges or other like institutions.

10 My said sister was not interested in any property real or personal as a joint tenant.

11 The few articles of jewellery left by my said sister were conveyed to Denmark by my said mother, the sole beneficiary under the will of my said sister and are still in the possession of my said mother in Denmark. I know the extent and value of the said jewellery, having seen the same whilst in the possession of my said sister prior to her decease and I know that the total value of the same was under Twenty pounds.

And I make this solemn declaration conscientiously believing the same to be true and by virtue of the provisions of the Oaths Act 1900.

Dear Sir,

A.R. Sleeman deceased.

In reply to your query as to the delay herein, I have to inform you that same has been occasioned partly by the necessity of producing a certificate of valuation, owing to the time reserved for an objection to be lodged against same, and partly by the fact that a balance sheet for submission to you could not be prepared pending the issue of the current balance sheet in the estate of F.W. Sleeman deceased.

The return is now practically complete.

Yours faithfully,

[Through Scandinavian Eyes - a History of Colonial Queensland](#)

I have been collecting material for a number of years now for the purpose of yet another book 'Through Scandinavian Eyes', dealing with the experience of Scandinavian migrants in early pre 1850s Australia and thereafter in Queensland.

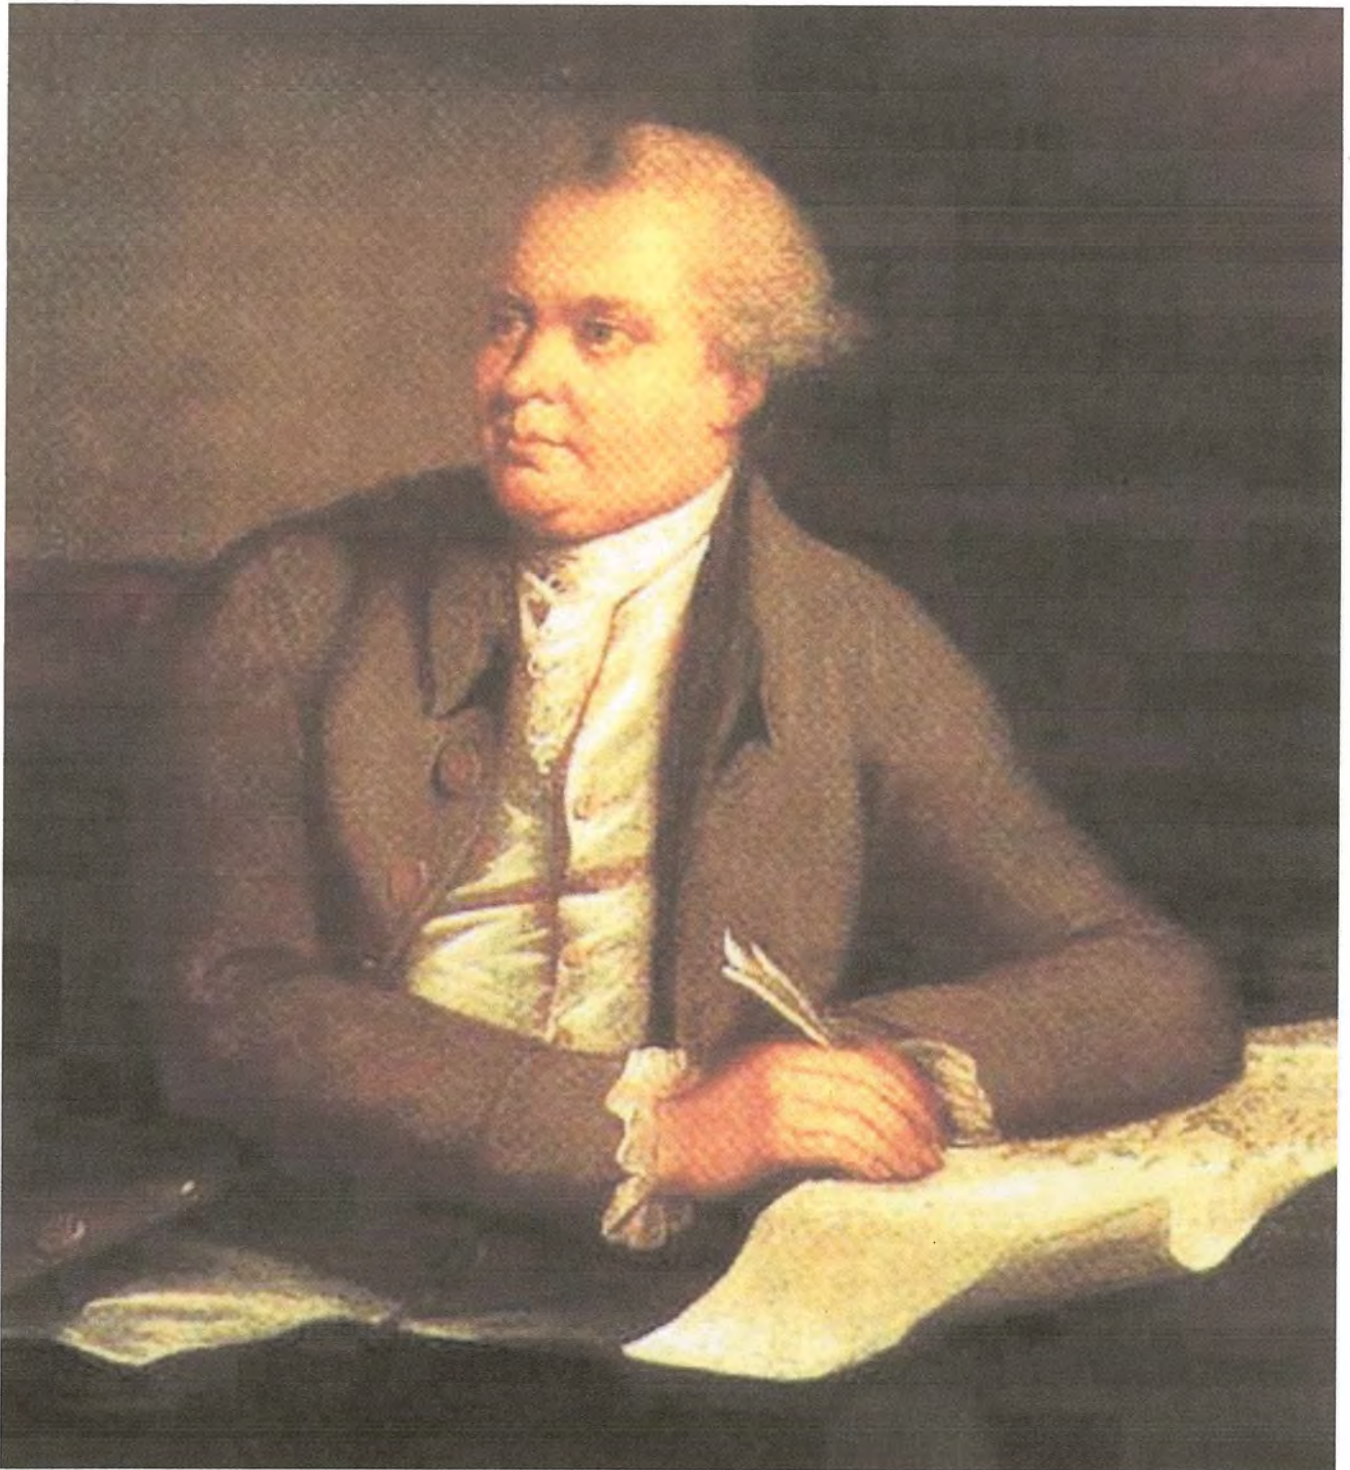

For the purpose of this book I have systematically gathered a database (the largest of its kind in existence) containing more than 27 500 entries on Scandinavians (chiefly Swedes, Danes and Norwegians) living in Australasia prior to 1914, with emphasis on those came to live in Queensland. I do, however, collect details of pre-1914 Scandinavian immigrants and mariners also from the other Australian colonies, New Zealand and other sections of the Western Pacific.

Yet the colony of Queensland was the main port of entry for Scandinavian immigration (Danes in particular) to Australasia onwards from 1870 and hardly any Scandinavian mariners in the Western Pacific and New Guinea did not at one time or the other pay prolonged visits to or live somewhere in Queensland.

People are welcome to contact me with questions and I am particularly interested and helpful if they have and are willing to supply me with material (pictures, diaries, letters and files) that might be useful for this book.

Robert Ørsted-Jensen

Note the contact information on the opening 'Home' page or by use of the luxmundipub@hotmail.com

Nobody know the name of the first European or non-Aboriginal person visiting the Australian continent. However, we certainly do know the name of the first academically educated scientist on Australian soil.

His name was Daniel Carlsson Solander (1733-1782), alias Carolus Solander, and he was a Swede and formerly a student with the world famous natural scientist Carl Linneaus (1707-1778) at University of Uppsala. He and his assistant and draughtsman Herman Spöring (1733-1771), a Swedish Finn, are also the first Scandinavian-born on record to set foot on Queensland soil.

The painting below depicts from left: Carl Solander, Joseph Banks, Captain James Cook, Dr John Hawkesworth and the Earl of Sandwich.

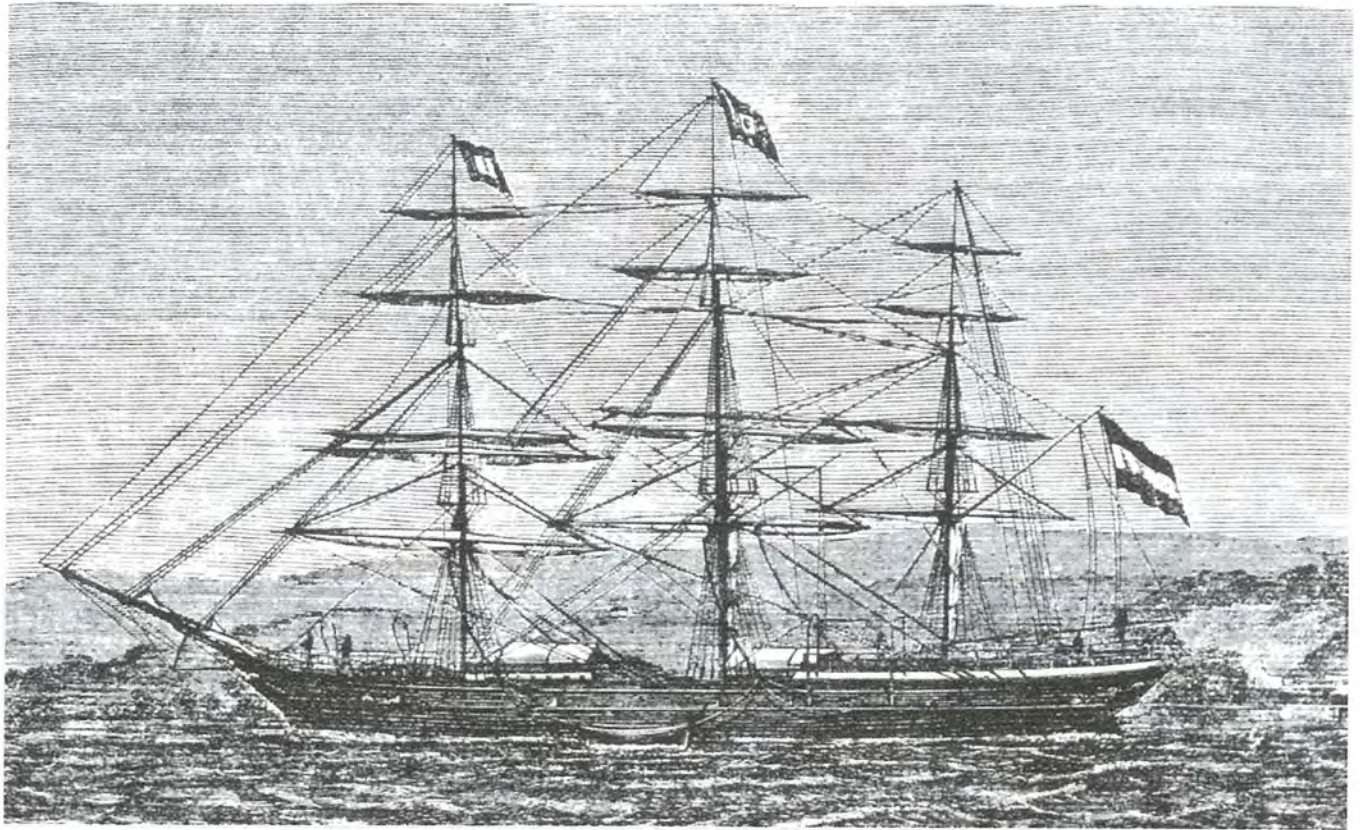

Above photograph of the Kvæsthusbroen in Copenhagen harbour was taken by the photographer Jens [Name] weeks prior to his own migration to Queensland in 1878. The vast

POWERED BY weebly

majority of the Scandinavians migrating to Australia in the nineteenth century migrated to Australia via Queensland during the 1870s. Probably some 60 percent of these migrants, Swedes and Danes in particular, commenced this journey from this very spot. They typically boarded the steamers seen in the right side of the picture which would take them to Lübeck in Germany. At Lübeck they had tickets issued for the train to Hamburg where they were quartered in the Hamburg emigration depots until such time their ship was ready to be boarded.

Hamburg harbour in 1875. On the far right side one sees **Baumwall**, the head office of Robert Miles Sloman & Co, a German-British owned shipping company whose agent Louis Knorr had a contract with the Queensland government from 1870. This was where the journey to Queensland began, and some of the ships seen in this picture will be the Sloman owned iron hulled clippers that sailed on to Queensland and New Zealand. The ships were Reichstag (below), Lammershagen, Shakespeare, Herschel, Humboldt, Eugenie, Charles Dickens, Gutenberg, Friedeburg, John Bertram and Fritz Reuter, most of them three-mast barque-rigged ships carrying some 350 passengers. The exception was the four masted Fritz Reuter and Charles Dickens who carried some 450 passengers. Alardus was the only non-Sloman ship sailing on this destination in the 1870s, she was hired by the Queensland agent from another German shipping company and the result was very awful indeed. Below is a picture of the Reichstag, a sister ship to Freideburg. They were very fast ships and would often make this journey in less than three months.

The first voyage and arrival to Maryborough of the Reichstag (above) on 4 March 1871, also marks the first arrival to Australia of a substantial number of what might be termed 'genuine' immigrants from Scandinavian countries. Many Scandinavians had certainly come to Australia prior to that period, but they arrived in small groups and they were often businessmen and similar who saw investment opportunities on this new continent, or they were mariners that jumped ship or other individuals and adventures often people driven by gold fever. The arrival of Reichstag, however, was the result of the first ever Australian Government funded migration scheme targeting Scandinavian countries. She departed Hamburg on this voyage with 329 passengers, 165 Scandinavians (125 Danes and 40 Swedes), 138 Germans, 40 Swiss and one Austrian.

The picture above was taken by the Danish photographer Jens Hansen Lundager (alias Jens Larsen Hansen from Bogense) in Gladstone in September 1887. Although it was never meant to be a depiction of Scandinavians, there are nonetheless several Danes in this picture. Notably a well known local, the then Port Curtis pilot Laurens Janson (alias Lars Jensen from the village Neble near Stege, Møn), he is the man with the hat on the top balcony, and Hansine Christie (nee Hansen) and her Carpenter husband Charles Christie (alias Carl Ulrich Christensen) both from Langeland (they are the people standing on the ground to the right).

John Olsen, better known as the man who discovered in 1882 on his land north of Rockhampton what was to be known as Olsen's Caves. Olsen migrated from Norway but he was in fact born in Värvik in Sweden in 1824, where he was given the name Johannes Olsson. However he moved to Norway with his wife and children in 1856 and from here to Queensland via Hamburg and Oslo (Christiania) in 1873. He may have been of Norwegian extraction, he certainly insisted that he was a Norwegian national at his naturalisation at the Court House in Rockhampton in 1876.

Julius og Carl Christensen from the town of Rudkøbing on the island Langeland in Denmark. They migrated to Queensland in 1872 and 1874. This photo was taken in the Queensland township of Rockhampton in about 1880.

Copenhagen born Mogens Frederik Kehlet, alias 'Fritz' Kehlet, was one of the earliest Danish Settlers in Queensland. He arrived in about 1860 and worked as a watchmaker, he was later a publican, proprietor of the Royal Hotel in Maryborough, and he later established the first holiday or tourist venue in Hervey Bay, the 'Valhalla Bording House' seen in this photograph from about 1880.

Gracemere station near Rockhampton was founded by the Scottish-Norwegian Charles Archer and later run by his eight brothers and their families. Charles Archer and five of his brothers were born in Scotland from where they migrated to Norway at a very early age, settling eventually at Tolderodden near Larvik. The eldest brother Charles Archer was 12 at the time of their migration and the youngest was the 2 year old Thomas Archer, another three brothers were afterwards born in Norway. Consequently most of them received their primary school education in Norway and this certainly made a serious impact noticeable in the naming of places and properties they had in Queensland. Most of these names originated in Norway and in Norse mythology. Eidsvold was named in honour of the first Norwegian constitution and the town in which it was negotiated and signed, the Berseker Range near Rockhampton was named after the famous Berserkers, a particular section of old Viking or Norse warriors who were said to fight in uncontrollable trance-like fury (this indeed is where the phrase 'go Berserk' originates). Charles Archer's horse was similarly named 'Sleipner', the name in Norse mythology of the horse of the supreme God 'Odin'. The lagoon near Gracemere was named after a lake near their home in Tolderodden Norway, Kroombit station and the nearby Mountain of that same name was equally of Norwegian origin and so it goes. The latter was named by Norwegian-born Colin Archer who later went on to make a name for himself as a naval architect of considerable fame. The success of the Archers attracted other Norwegians to Queensland, among the more notable was the scientist Carl Lumholtz.

One of the most notable Norwegians in colonial Queensland history was Peter Abelsen (alias Peter Brown), a ships carpenter turned gold prospector in Queensland during the late 1860s. Abelsen was James Venture Mulligan's right hand when they discovered the famed Palmer River goldfield in October 1873, triggering one of the last of the really big alluvial gold-rushes in Australian history and certainly one of the most important events in Queensland history. Abelsen built the very first gold washing cradles on that field.

The Dane, Bertel Johannes Bertelsen, belonged to the aristocracy amongst Scandinavian migrants in early Queensland. He was certainly not only one of the most successful but also the very earliest Scandinavian-born to settle in what was then Northern New South Wales. He commenced his career as a bookkeeper and moved on to be the station manager and subsequently the proprietor or 'Squatter' of

Boonara station near present day Kingaroy in the South Burnett from 1847 to 1852. He became a very wealthy man on this account and this is how he looked a decade or so later.

baptized St. Petri Sokkelund, midwife Madame Holmberg; confirmed Easter 1870; Danish Archives show that Friedrich Wilhelm Ferdinand Schliemann migrated on 19/03/1877 from Denmark, 20 years old, to Brisbane, Queensland, with the ship Charles Dickens; Natualization on October 18, 1904; "Ferdinand" commenced a business which he called The Parisian Laundry, which on his death was willed to his son Wenzel. The business became Parisian Services Pty Ltd and was developed into a substantial and well known family business servicing Sydney, but which closed in the 1970's as domestic laundry reduced in popularity and the laundry was located firstly on the

corner of Leswell Street at 248 Waverly Road (Oxford Street) Woollahra until 1908 and then at 152 - 160 Oxford Street Woollahra Sydney in an area that became very up-market with constant opposition to its existence. The business was closed and the property demolished to make way for residential terraces.
